**ACKNOWLEDGEMENT**  
**PRESIDENCY UNIVERSITY**

I, Shree Sai Pavan E, ID: 20221CSE0458, declare that the project work titled “Smart Multilingual Chatbot for PGRKAM Platform” submitted for the award of the degree of B-Tech in COMPUTER SCIENCE ENGINEERING at Presidency School of Computer Science and Engineering, Presidency University, Bengaluru, has been independently carried out by me in partial fulfilment for the award of the degree of B-Tech in COMPUTER SCIENCE ENGINEERING during the academic year of 2025-26.

**PRESIDENCY SCHOOL OF COMPUTER SCIENCE AND  
ENGINEERING**

**DECLARATION**

I, Prajwala A, ID: 20221CSE0355, declare that the project work titled “Smart Multilingual Chatbot for PGRKAM Platform” submitted for the award of the degree of B-Tech in COMPUTER SCIENCE ENGINEERING at Presidency University, Bengaluru, has been independently carried out by me in partial fulfilment for the award of the degree of B-Tech in COMPUTER SCIENCE ENGINEERING during the academic year of 2025-26.

We the students of final year B-Tech in COMPUTER SCIENCE ENGINEERING at Presidency University, Bengaluru, named SHREE SAI PAVAN E ID: 20221CSE0458, PRAJWAL A ID: 20221CSE0355, SRUJAN S ID: 20221CSE0457, hereby declare that the project work titled “Smart Multilingual Chatbot for PGRKAM Platform” has been independently carried out by us and submitted in partial fulfilment for the award of the degree of B-Tech in COMPUTER SCIENCE ENGINEERING during the academic year of 2025-26.

Very truly yours, individual declaration to Dr. Parvathy N, Dean Project & PG Research, Academic Head, Presidency School of Computer Science and Engineering, Presidency University, Bengaluru.

PRAJWALA	20221CSE0355	Prajwala .A
SHREE SAI PAVAN E	20221CSE0458	Shreesaiwan .P
SRUJAN S	20221CSE0457	Srujan .S

Project Work Supervisor: Dr. Parvathy N, Dean Project & PG Research, Academic Head, Presidency School of Computer Science and Engineering, Presidency University, Bengaluru.

PLACE: BENGALURU

DATE: 04-12-2025

We are also grateful to the Teaching and Non-Teaching staff of the Presidency School of Computer Science and Engineering, and also staff from other departments who have extended their valuable help and cooperation.

SHREE SAI PAVAN E

PRAJWALA

SRUJAN S

## Table of Abstract

The PGRKAM (Punjab Ghar Ghar Rozgar and Karobar Mission) platform serves as an essential resource for employment facilitation in Punjab, connecting job seekers with opportunities provided by the state government. The much-needed analytics is missing in the PGRKAM platform that significantly depends on it to demonstrate user behavior and platform performance.

The project is the answer to this problem and an innovation of a complex analytics tool related to the PGRKAM web and Android applications. The technique was to survey the finer user-event data, including page interactions, referral to the adverts, and demographic profile. The system provides individual job suggestions using machine learning algorithms (Collaborative Filtering and Genetic Algorithms). The data is processed and presented through interactive dashboards, simultaneously, allowing the officials to make a decision supported by data so that to boost the number of users and employment rates.

PGRKAM analytics tool was integrated and tried on the local network of PGRKAM, which demonstrates better insights and real-time monitoring capacity. There were security measures in place to ensure that the data was handled in line with privacy laws. The results indicate that the platform can become an excellent tool in the specific employment services where the fit of skill and opportunity by job seekers is maximized. The project also aligns with the SDGs in that it will lead to sustained, inclusive and sustainable economic growth, full and productive employment as well as decent work to all.
